Some Reminders For the Day

- We are not answering all of the recommendations in the TRB281 study
- Drop any preconceived notions about this effort
- Only 1 vote per agency/organization per task team
- We will be selecting a Chair and Co-Chair for this effort
- The Chair and Co-Chair will be instrumental in establishing/carrying forward a plan for achieving the team goals
- The Chair and Co-Chair will be providing leadership and direction to the team

U.S. Department
of Transportation

Pipeline and
Hazardous Materials
Safety Administration

Some Reminders For the Day

- Cycla will be assisting the Chair and Co-Chair as needed
- The Chair can vote only if they are the selected agency/organization representative
- Consensus does not mean everyone agrees, it means that is what you can support and live with
- We will be discussing/customizing the Goals
- If we need to drop a subject, team members just need to agree to place it on the “Parking Lot”

of Transportation

Pipeline and
Hazardous Materials
Safety Administration

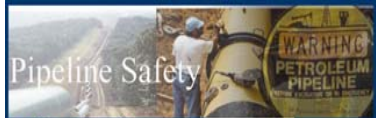

Some Reminders For the Day

- If we need information from another team or if we believe there is a relationship to what another team is doing, then we will refer to that as “Cross-Cutting” and discuss how to proceed as a team
- At the end of the day, we need to be able to report what our next steps are and describe a general strategy to meet our goals. The next meeting date needs to be selected.
- Mark your calendars for July 14, 2008 and January 19, 2009
- PHMSA is a participant and is just helping/assisting in starting this effort

Pipeline and
Hazardous Materials
Safety Administration

Hazmat Safety

Expectations/Responsibilities (Goals)

- Determine if there is consensus on best practices for:
 - Fostering early communication among local government planners, property developers, and pipeline operators.
 - Real estate disclosure of transmission pipeline ROW.
 - Communicating acceptable uses and activities on ROW to land owners.

- Describe benefits of pipeline transportation.

U.S. Department
of Transportation

Pipeline and
Hazardous Materials
Safety Administration

Expectations/Responsibilities (Goals)

- Examine risk posed by pipelines at the National level.
- Examine possible tie-ins with Common Ground Alliance (CGA) Best Practices.
- Formulate PIPA risk communication plan and design format of final PIPA work product for all Task Teams.
- Identify any additional related goals of merit for this Task Team

of Transportation

Pipeline and
Hazardous Materials
Safety Administration

The Agenda

- Sample Best Practice Models:
 - Model Program
 - Consensus Standard Example
- Lessons Learned
- Resources

U.S. Department
of Transportation

Pipeline and
Hazardous Materials
Safety Administration

The First Assignment

- Discuss Who is Not Here or Who is Missing?
- How do we get them involved?
