Closure Letter**

Dear Mr. Pellicciotta:

From March 4 through 8, 2019 and March 19, 2019, a representative from the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to chapter 601 of 49 United States Code, conducted an on-site pipeline safety inspection of Eni US Operating Co., Inc.'s procedures for Control Room management on the North Slope of Alaska and in Anchorage, Alaska. As a result of the inspection, Eni US Operating Co., Inc. was issued a Notice of Amendment on November 12, 2019, which proposed amendment of your procedures.

Eni US Operating Co., Inc. submitted its amended procedures on March 16 and 31, 2020. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Dustin Hubbard
Director, Western Region
